PROFILE

Full-Stack Developer experienced in the end-to-end development of modern, scalable web applications using Next.js, Node.js, and PostgreSQL, with a focus on performance and UX.

WORK EXPERIENCE

Associate Software Engineer
NineHertz [↗](#)

August 2024 – July 2025
Jaipur, Rajasthan — Onsite

- Designed and shipped 3 production-grade apps: (*Talk To You Later* [↗](#), *Notes of worship* [↗](#), *Two-day* [↗](#)) end-to-end (frontend + backend), enhancing feature delivery and user experience across the board.
- Integrated AI features (OpenAI API) and real-time systems using WebSockets, queues, including a voice-to-voice pipeline (ElevenLabs TTS) — reduced manual ops by 40%.
- Reduced p95 database response time by 60% by analyzing query patterns, eliminating N+1 queries, and implementing a Redis-based cache-aside strategy for high-traffic endpoints.

Associate Software Engineer
Tempospace [↗](#)

April 2023 – August 2024
Remote

- Refactored RBAC modules, improved query efficiency, and integrated Redis-based caching — cut API latency by 6 seconds.
- Shipped modular backend services with structured access control, reducing error rates and cloud spend.

PROJECTS

Snapcart – Full-Stack E-Commerce Platform

Oct 2024

- Developed a full-stack e-commerce application featuring product catalogs, user profiles, and a seamless checkout experience with multiple payment options.
- Implemented a robust order management system, including order history, detailed summaries, and a reward points system to incentivize purchases.
- Designed and managed complex data relations for products, categories, collections, and user orders within a relational database.
- **Tech:** Next.js, TypeScript, Prisma, PostgreSQL, Stripe, Gemini API, Tailwind CSS.

Coursewave – Full-Stack Learning Platform

Jan 2024

- Developed a full-stack platform featuring user auth, course enrollment, and a Stripe payment pipeline.
- Integrated Gemini API to generate AI-powered learning roadmaps, personalizing the user experience.
- Designed database schemas and API routes to manage users, courses, enrollments, and articles.
- **Tech:** Next.js, TypeScript, PostgreSQL, Stripe, Gemini API, Prisma.

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind, Flutter, Dart
Backend	SQL, Node.js, Express.js, NestJS, REST APIs, WebSockets
Database & Others	PostgreSQL, MySQL, Docker, AWS (EC2, S3, IAM), Git

EDUCATION

B.Tech – Computer Science & Engineering
BKBIET, Pilani

2019 – 2023
CGPA: 8.9
